

GHK-Cu Copper Peptide: The Holy Grail of Healing

Dr. Loren Pickart discovered GHK and many of its biological effects with his original thesis is titled: "A TriPeptide From Human Serum" (June 1973)

When you elevate GHK-Cu Copper Peptide it activates your own Stem Cells to repair and regenerate you, just like when you were younger!

As we age, we produce less and less of these young stem cells, slowing down our body's ability to repair and regenerate itself. By age 35 we have lost 50% of our stem cell activity and by age 65, we have lost almost all of it.

GHK-Cu Copper Peptide is proven to **ACTIVATE** your stem cells, **PRODUCE** more stem cells, and **RESET** your stem cells to work like younger stem cells again to repair and regenerate you..

These newly activated younger stem cells are pluripotent, which means they are the only cells in your body that are changeable. They can change into whatever cell your body needs for repair.

In fact, within 24 hours, GHK-Cu Copper Peptide resets 4,000 genes to a younger, healthier state turning your old cells young again.

And the army starts marching . . .

Even if you don't immediately feel the effects, rest assured your army of stem cells is now hard at work repairing your most critical issues first before moving on to something you do feel.

The Benefits of GHK-Cu Copper Peptide

SKIN & HAIR

- GHK tightens loose skin and thicken older skin
- GHK reduces fine lines and depth of wrinkles
- GHK increases hair growth and thickness
- GHK accelerates wound healing

LUNG PROTECTION

- GHK tops the list for chronic pulmonary issues
- GHK restores healthy function in lung cells
- GHK protects lung cells from damage

ANTI-FAST GROWING CELLS

- GHK tops the list to combat Fast Growing COLON cells
- GHK resets the PROGRAMMED CELL DEATH for aging cells
- GHK inhibites NFKB p65 which promotes fast growing cells
- GHK repaires damaged cells (47 genes up, 5 genes down)
- GHK resets 84 genes to inhibit fast growing cells

BRAIN & NERVES

- GHK resets human genes important to proper neuron function with 408 UP and 230 DOWN
- GHK induces strong Anti-Stress & Anti-Anger
- GHK induces Anti-Discomfort Activity
- GHK is being used for damaged spinal cords

ANTIOXIDANT POWER

- GHK increases SOD1
- GHK suppresses NFKB, a primary cause of aging
- GHK completely blocks oxidation

ACTIVATES STEM CELLS

- GHK causes adult Stem Cells to start producing again
- GHK produces more Stem Cells and resets Stem Cells to a younger, healthier state
